

# **Community Herbarium – School Project Pack**

**Free nature-connection resources for classrooms, Steiner schools, forest schools & home educators.**

## **Who's This For?**

These resources are designed for any group exploring plants, seasons, or nature connection, including:

- Steiner / Waldorf schools
- Forest schools
- Primary school classes
- Home educators
- Nature clubs & eco groups
- Scouts, Brownies, Guides
- After-school eco clubs
- SEN groups
- Outdoor classrooms & wild-learning groups
- Any teacher wanting a gentle, sensory-based plant project

## **Teacher Guide**

A simple rhythm for the Community Herbarium project:

1. Go outside to a local green space.
2. Each child chooses one plant that 'calls' to them.
3. Younger children use the Kids Template (drawing + simple prompts).
4. Optional: pick one leaf/flower (from abundant plants only).
5. Press plant material for about one week if collecting.
6. Back indoors, complete the reflection sheet.
7. Email submissions to [hello@plantadvocate.co.uk](mailto:hello@plantadvocate.co.uk).

### Partner School Badge

When your class completes the activity and sends in their Herbarium pages, you will receive the official

Plant Advocate – Partner School badge (PNG + PDF).

Below is an example of the badge:
